INTERCOM SYSTEM INSTALLATION DISCLAIMER

ASC is happy to provide you with installation labor services for your Intercom system. However, certain conditions apply that you should be aware of.

We did not provide the Equipment.

We cannot guarantee that your Intercom equipment will work as you desire because we did not furnish the equipment. Our past experience shows us that Equipment can often arrive defective from the manufacturer.

Any new equipment that we add to this system is warranted for one year, and the labor to install it, for ninety days, as stated in our Agreement.

However, we do not warrant or guarantee the function of any portion of the existing Intercom system, including the power supplies, components, peripheral devices, and wiring.

If any portion of the existing Intercom system fails **during or after** our installation is complete, the costs to troubleshoot and then repair or replace devices, wiring or batteries, will be borne by the customer on a time and materials basis.

I understand these limitations of liability and agree to them.
