

GE Simon 3 Control Panel and TouchPad

Simon 3 is a low-cost security panel that offers up to 24 zones of burglary and fire protection and complies with SIA False Alarm Standards. With a built-in touchpad and status speaker that provides voice messages for feedback, Simon 3 is well-suited for houses, apartments, and condominiums.

Using remote phone control, you can arm and disarm the system, check system status, activate no entry delay, or activate the latchkey feature. With latchkey capabilities, the panel can be programmed to notify customers if the system has not been disarmed at a scheduled time.
